

Observation sheet

Please record the details of the 40-minute observation in the table below. For each 20 seconds you have observed, write what you have seen for 40 seconds and then repeat this so you have a total of 40 observations. When you have finished the 40 observations, review your notes and grade each observation by ticking the relevant box using the following key:

1 = Differentiation **2** = Practising **3** = Early rapprochement **4** = Late rapprochement
