

# Worksheet 8:

## Dementia in the lived experience of lesbian, gay, bisexual, trans and gender diverse (LGBT) people

All aspects of life are impacted by the passage of time, and just as a person's needs in relation to health, education, housing, employment and family relations alter as we age, the particular concerns of lesbian, gay, bisexual, trans and other gender diverse people also evolve and change.

**What do you think the challenges of being a family carer for a person with dementia, when both are members of the LGBT community, might be?**
